CURRICULUM

The Macedonian Community Language School focuses on providing the best possible program for students.

The School works closely with teacher associations in the eastern states to develop and deliver a language course outline that is consistent with other Australian States who deliver Macedonian language.

The language course outline offers a systematic approach to teaching providing a rich and integrated program whilst retaining the traditional functions of listening, speaking, reading and writing.

Each year the language course outline is submitted to the Western Australian Department of Education under its Community Languages Program.

Cultural understandings are embedded in the language course outline, including music, songs and stories.

The Program also provides practical opportunities to use the Macedonian language in associated Community events. Students and their families are encouraged to become involved and participate.

The Macedonian Community Language School is exploring the possibility of nationally recognised certificates in Macedonian language.
