CURRICULUM

The Macedonian Community Language School focuses on providing the best possible program for students.

K-12

The School works closely with teacher associations in the eastern states to develop and deliver a language course outline that is consistent with other Australian States who deliver Macedonian language.

The language course outline offers a systematic approach to teaching providing a rich and integrated program whilst retaining the traditional functions of listening, speaking, reading and writing.

Each year the language course outline is submitted to the Western Australian Department for Local Government and Communities under its Community Languages Program.

Cultural understandings are embedded in the language course outline, including music, songs and stories.

The Program also provides practical opportunities to use the Macedonian language in associated Community events. Students and their families are encouraged to become involved and participate.

Foundational Macedonian

This Program is for students 17 years and older who have little or no knowledge of the Macedonian language. Students enrolling in these classes will learn to read and write Macedonian whilst developing an understanding of the history and structure of the Macedonian language.

Advanced and Conversational Macedonian

This Program is for students 17 years and older who have the ability to read and write Macedonian at a basic level. Students enrolling in these classes must have a basic understanding of the Macedonian language both written and spoken.

This Program is designed to build on the Foundational Macedonian Program and further enhance the use of the Macedonian language through conversation, literature and cultural sources.

Other

The Macedonian Community Language School is exploring the possibilities of other short term courses and teaching English as a second language in 2015. For further updates please check the Macedonian Community of WA Inc website on www.macedoniawa.com.au and select Language Classes.
